WHO ARE WE?

Founded in 1988, Sentinel Sprinklers has been providing advanced fire protection systems and services for over 34 years.

Our solutions have helped provide peace of mind for our clients, ensure compliance with regulations, and business longevity.

Our proven track record of expertise combined with a national footprint in all major provinces has afforded us the opportunity to service and make a tangible difference to some of the biggest companies in Africa.

OUR VALUES

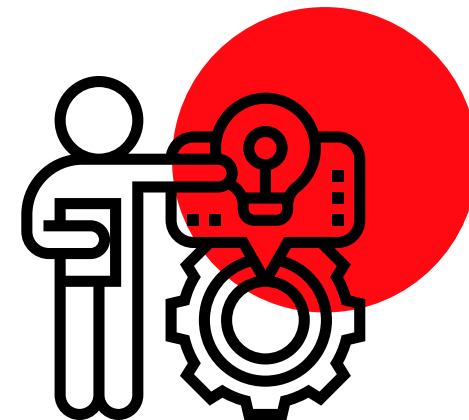

Why work with us?

Our values are our core beliefs and they form the basis of who we are. Whether you are a multi-national company or an SMME, our values filter through in all our interactions and deliverables.

Integrity

Adhering to moral and ethical principles regardless of the situation or circumstance

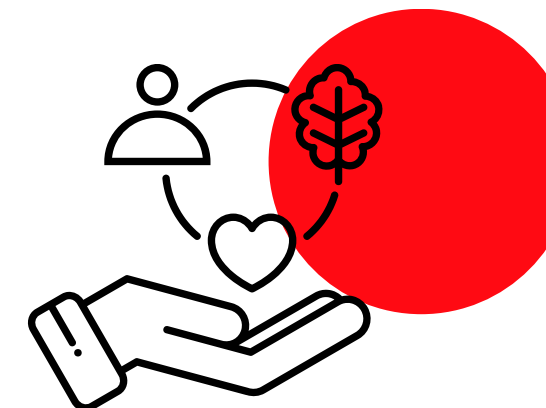

Innovation

Striving for evolution and advancement with every project we undertake

Passion

Displaying enthusiasm and excitement for our industry, clients and the work we deliver.

Responsibility

Ensuring we protect our clients and their properties by delivering safe and effective solutions.

Compliance

Delivering solutions that adhere to regulations and are undertaken by accredited professionals.

OUR TEAM

You're in good hands!

Qualified

Our staff are certified and competent in their positions, with many possessing both local and internal qualifications.

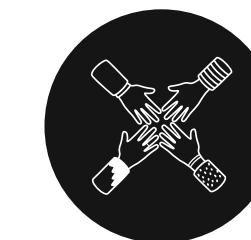

Professional

Regardless of the situation, you can trust that you will be working with a professional who conducts themselves as such.

Experienced

All our technical staff are highly experienced in their respective fields.

Diverse

We are committed to creating opportunities for South Africans of all backgrounds and heritages.

OUR APPROACH

We pride ourselves on our approach that has evolved and improved over the years to include over 3 decades of learnings.

Each client is assessed by our skilled team, taking into consideration their individual requirements, budgets, and timelines to deliver a comprehensive service that meets and exceeds client expectations.

Step 1

Evaluate, assess and provide appropriate solutions

Step 2

Activate project team

Step 3

In depth project reporting

Step 4

Commissioning and handover

Step 5

Approval with the relevant body

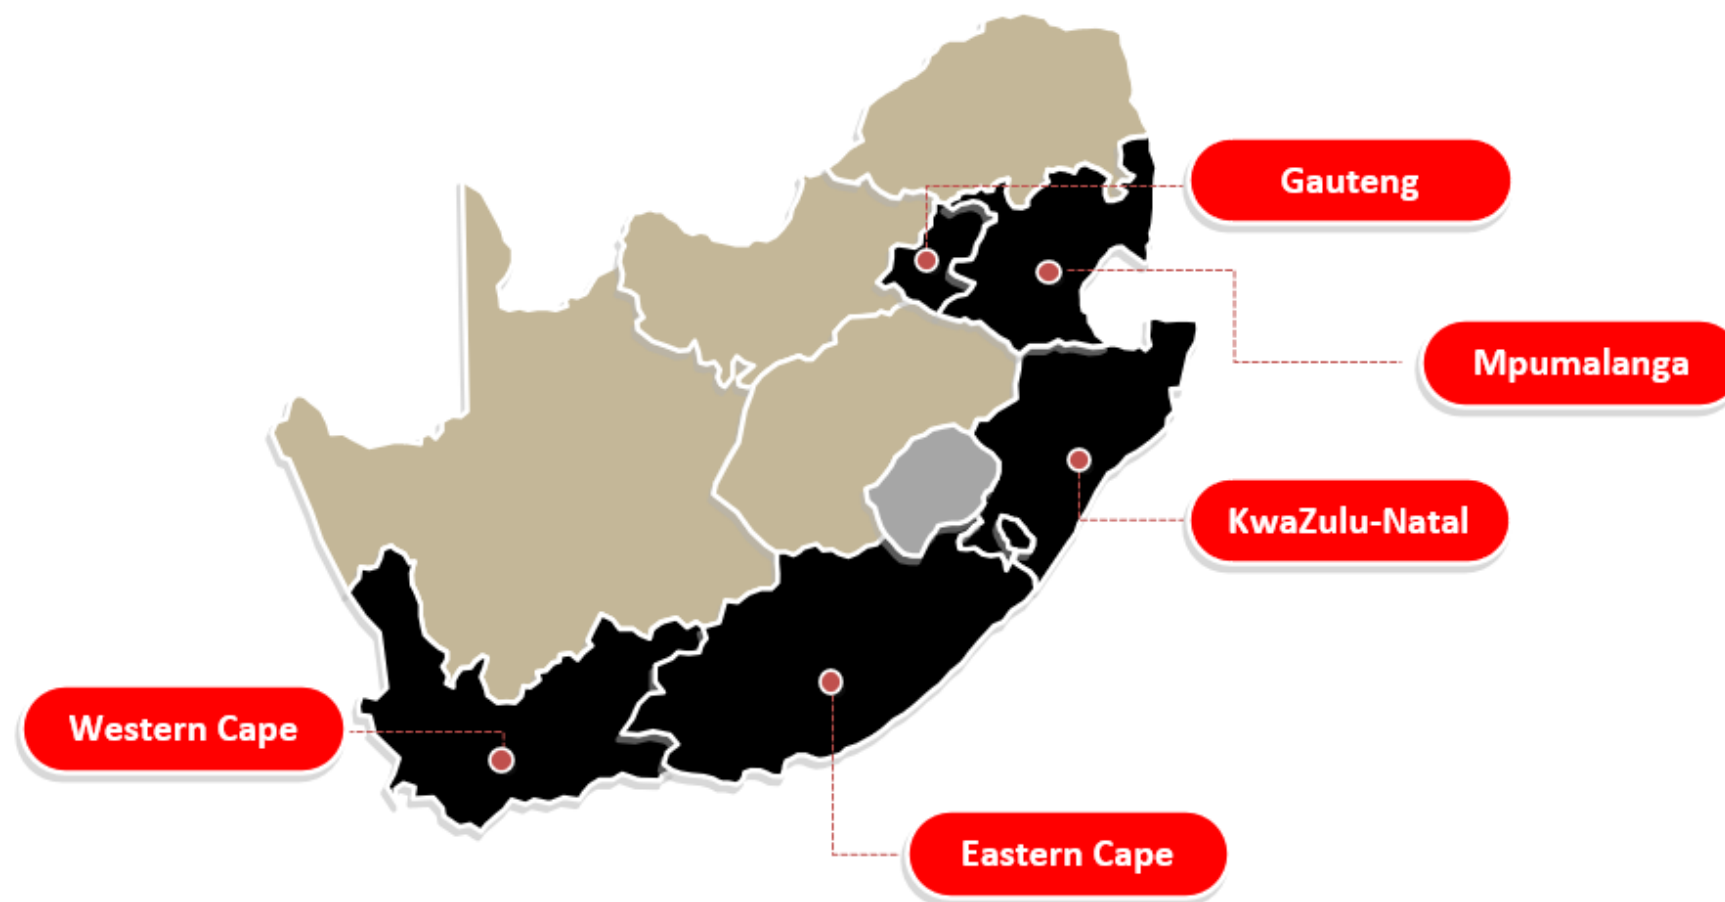

OUR CLIENTS

You're in good company!

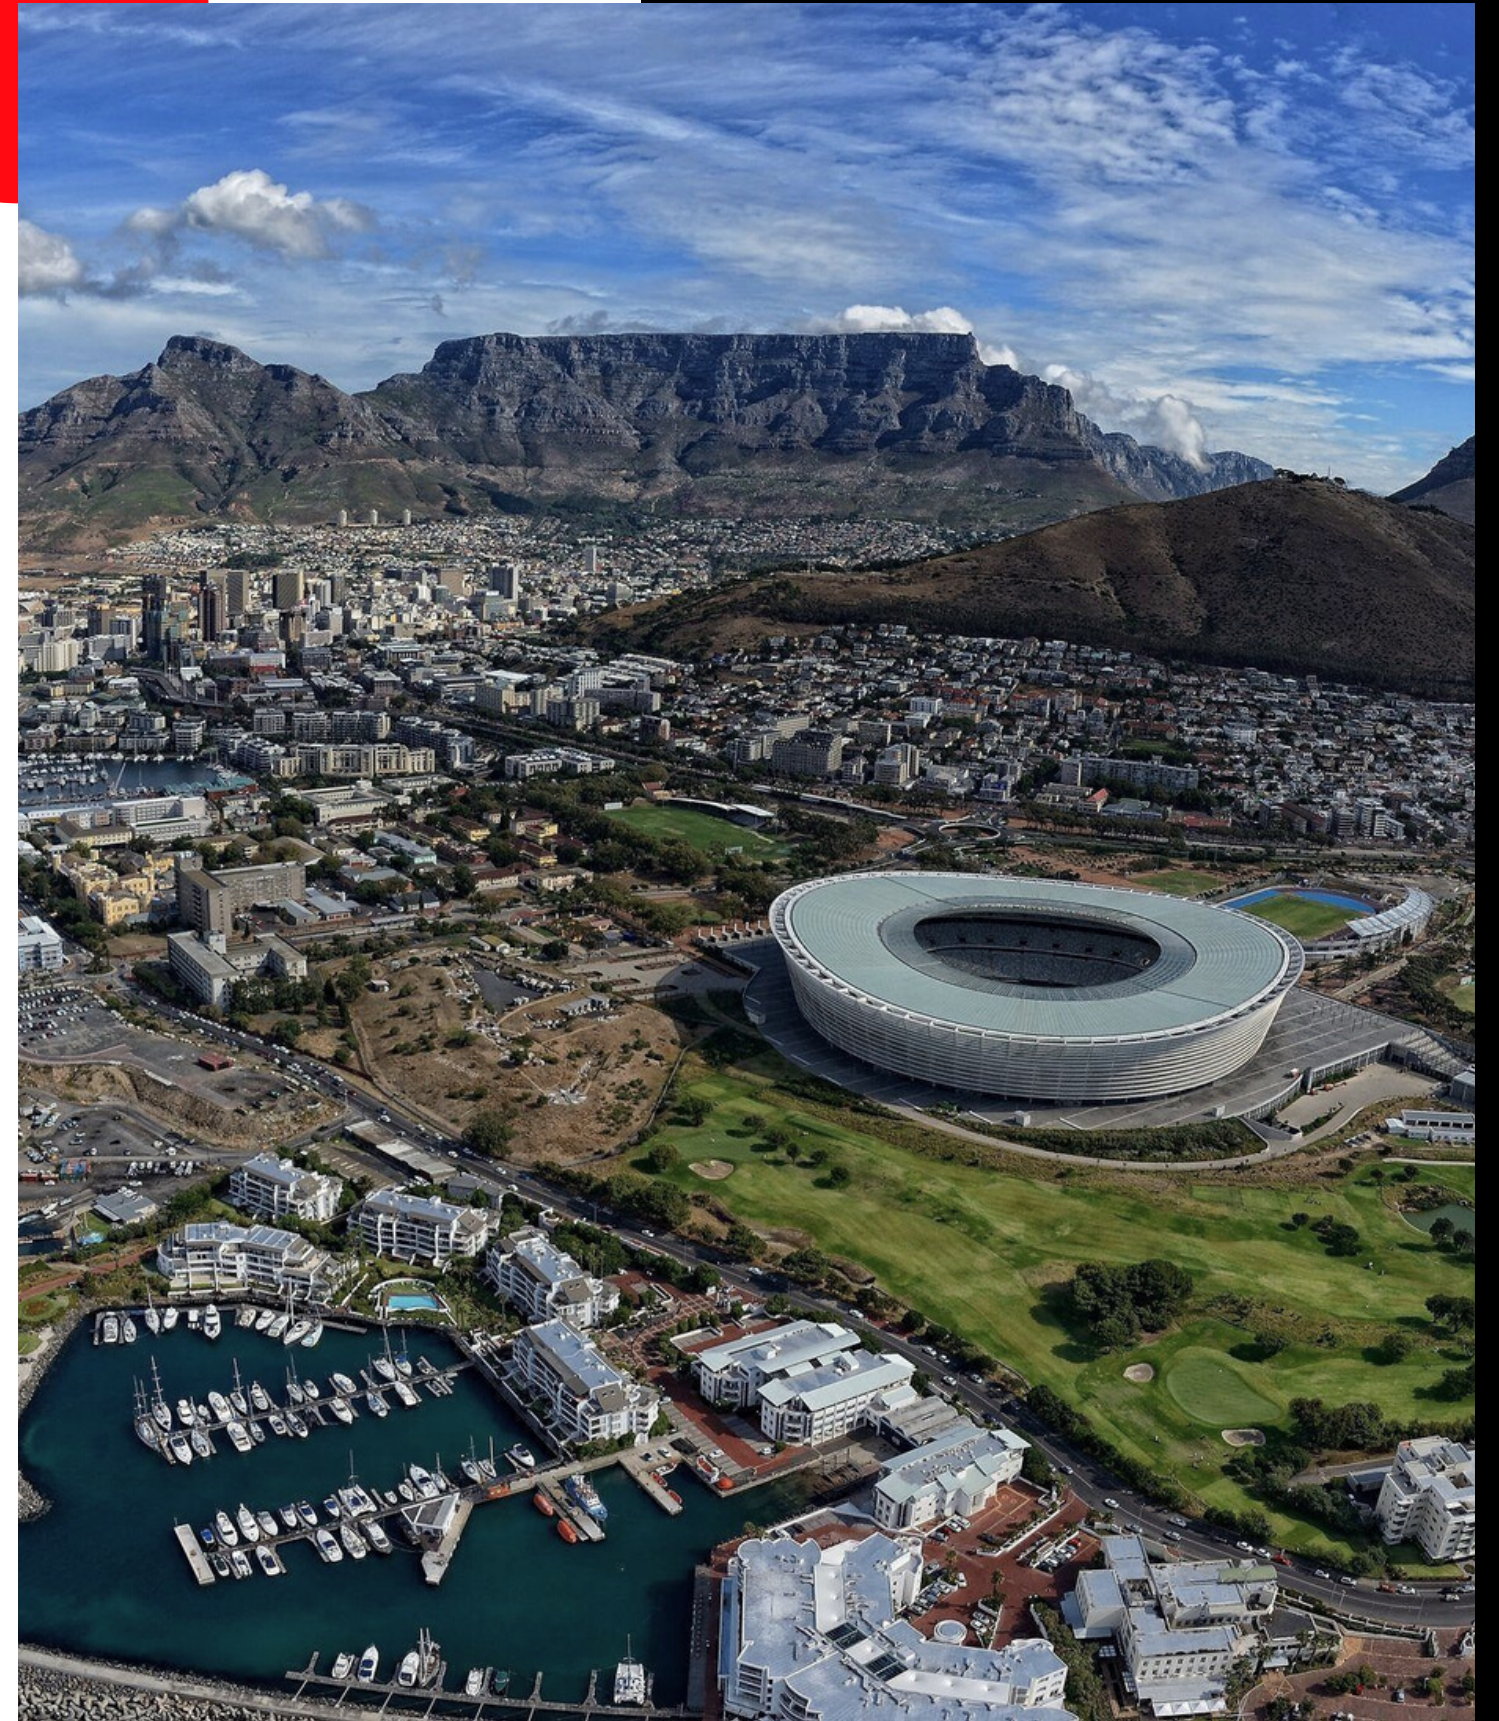

Some notable and respected clients that we have worked with.

OUR FOOTPRINT

We have worked in all major provinces within the country.

WHAT WE OFFER

Our services are highly specialised and range from small projects with single specified systems right through to large multi-site customer portfolios nationwide.

We understand our client's needs from end to end. Our business is focused on compliance, we help guide our clients in the direction that best suits their goals.
